| 9:30am-11:00am    | <b>Ashe Owens</b><br><b>Planning a Larger Piece</b><br>Whether it's deco, a dress, or a sculpture, larger projects need a solid plan behind the build. This class will cover everything that happens before creating a final piece. From choosing the right balloons and methods for long wear or indoor vs outdoors; to literally making sure it can get out the door. Having these things accounted for can make or break a project. (This will be more lecture/q&a) | <b>Amanda Careford</b><br><b>Fierce 'n Fairies</b><br>On the job, one stroke designs for both boys and girls... Tink, T-Rex and Raptors                                                                                                                                                                                                                                                                                                                    | <b>Kornpop McCullough</b><br><b>Balloon Wearables</b><br>Learn how to make great balloon costumes for parades or VBS using Linking Balloons. When you show up as a dancing Christmas Tree, or maybe a Minion, everyone will want a picture with you. A hands on class that will make you laugh out loud. We will make a Wearable turkey in class.           | <b>Amanda Clark</b><br><b>Roses Workshop</b><br>This class will be hands on so come ready to practice. We will go step by step to improve the look of your roses. This class will also demonstrate some creative ways of placing roses to be most flattering on any person you paint. | <b>Sig Aberin</b><br><b>Holiday ProAir Makeup Looks with Bling and Glitter</b> |
| 11:15am - 12:45pm | <b>Lindsey Swiatowy</b><br><b>So You Want To Learn to Make Balloons?</b><br>This class is an introduction class to balloon twisting. Lindsey will teach you the basics of balloon twisting by creating 3 simple balloon figures step by step                                                                                                                                                                                                                           | <b>Emiliia Zakonnova</b><br><b>The Magical Unicorn</b><br>Discover why unicorns remain a timeless crowd favorite! Learn how to paint beautiful unicorns step by step - from elegant, detailed designs to quick versions perfect for busy events. Explore smooth color transitions, graceful flow and the optional use of horn stencils to enhance your creations. Leave with a collection of magical, high-impact looks that always enchant your audience. | <b>Josh Clark</b><br><b>Perfectly Pretty Princesses</b><br>In this class, attendees would learn how to make cute princesses, fairies, and mermaids.                                                                                                                                                                                                         | <b>Lamar Garcia</b><br><b>Elevate Your Design with Line Work</b><br>Add a new twist to your design with line work. Fast easy upgrades. Add a pop of neon. Take a quick design to the next level with a few extra steps.                                                               |                                                                                |
| 12:45pm - 2:15pm  | Lunch and Vendor Room                                                                                                                                                                                                                                                                                                                                                                                                                                                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                            |                                                                                                                                                                                                                                                                                                                                                             |                                                                                                                                                                                                                                                                                       |                                                                                |
| 2:15pm - 3:45pm   | <b>Tony Maxironi</b><br><b>Balloon Building Blocks</b><br>A base concept that can be adapted to create multiple designs will be introduced                                                                                                                                                                                                                                                                                                                             | <b>Laura Pennock</b><br><b>Beginner Henna</b><br>Are you ready to begin your henna journey? Come learn all about the ancient art starting at square one. In this class, henna is accessible to EVERYONE. Learn all about how to make it, use it and what makes it so special. Be prepared to have all of your questions answered as we explore henna together.                                                                                             | <b>Callie Compton</b><br><b>Say No To The Dress</b><br>Make alternative balloon fashion wearables using techniques you (likely) already know, in different ways! Learn to level up your balloon wearables in this hands on class-making everything BUT your typical balloon dress.                                                                          | <b>Heather Green</b><br><b>Holly Jolly Holidays</b><br>The Holiday season is around the corner and with the right tools you can bring on the holiday cheers fast and impressively. Join Heather for a fun and festive face painting class.                                            |                                                                                |
| 4:00pm - 5:30pm   | <b>Cody Williams</b><br><b>Awesome Mix Volume 2</b><br>This class will include my most recent popular requests that I have been making day to day, or if the class wants to work on something stumping them, we can deviate. Its an adaptive hands on class.                                                                                                                                                                                                           | <b>Irene Melvin</b><br><b>Food Art</b><br>Unleash your creativity with Food Art! In this playful class, you'll learn how to create adorable cartoon-style food illustra4ons—perfect for events, branding, or just for fun. We'll focus on Food Truck-style designs that are bright, whimsical, and guaranteed to bring a smile to anyone's face. Whether you're preparing for a client gig or building your portfolio, this class is a treat!              | <b>Rosie Okonski</b><br><b>Scaling and Subcontracting</b><br>Your business can only grow so much when hiring yourself out solo. Learn how other successful artists and businesses in the industry are maximizing their income and growing their businesses by working with other artists while still maintaining high standards and reputation for quality! | <b>Brie Hopkins</b><br><b>Fast and Fabulous</b><br>Paint quicker, wow bigger-make speed your superpower (and boost your income!) Discover how to pain quickly without losing quality or impact. This class is packed with tricks to save time, wow your clients and make more money.  |                                                                                |
| 5:30pm - 7:30pm   | Vendor Room                                                                                                                                                                                                                                                                                                                                                                                                                                                            |                                                                                                                                                                                                                                                                                                                                                                                                                                                            |                                                                                                                                                                                                                                                                                                                                                             |                                                                                                                                                                                                                                                                                       |                                                                                |

| 9:30am - 11:00am  | <b>Kornpop McCullough</b><br><b>Birthday Parties with Style and Add Ons!</b><br>In this class Kornpop will teach you how to get birthday parties and how to perform at a birthday party, so they'll ask you back year after year. We will also learn how to add on candy cups and simple balloon decor to make more money out of each party.                                                                                                                                                                                              | <b>Laura Pennock</b><br><b>5 Secrets to Fabulous Face Paint</b><br>After 15 years of traveling the country and painting tens of thousands of faces, Laura is ready to share her secrets! In this hilarious memoir-style class, we are going to delve into the mess and mayhem that is booth life. Learn how to master your craft and LOVE your job. Come away with five secrets that will transform the way you see yourself and embolden you to paint better than ever before.                    | <b>Callie Compton</b><br><b>Balloon Games and Activities</b><br>Come ready to play or just to learn games and activities you can use at birthday parties, kids camps, or even to help your staff bond! Take a break from plain twisting and get moving!                                                                               | <b>Heather Green</b><br><b>What Does that Brush Do?</b><br>Welcome to the wide world of brushes. Come and learn how to use a variety of brushes, how to maximize them and what brushes you must have.                                                                                                           | <b>Michael Green</b><br><b>Temporary Tattoo Workflow</b><br>Come take a closer look at Michael's setup and how he manages his shop at fairs and festivals. Learn critical timesaving habits that will maximize your profits. Lots of super helpful tips to make you a tattooing beast!!!!                                                                                                                                                                                                                                                                                                                                     |
| 11:15am - 12:45pm | <b>Lindsey Swiatowy</b><br><b>Purty Face Balloons</b><br>You may be a pretty good balloon artist, but how are your drawing skills? In this class you will learn how to up your fame in drawing on your balloons. Following along step by step will launch you forward beyond your wildest dreams in balloon art. You may "think" you can't draw, but with a little guidance and practice, you CAN! Improving your marker art will significantly improve your artistry as a whole and is a skill that can be utilized at every single gig. | <b>Amanda Clark</b><br><b>Level Up Your Linework</b><br>This class will be hands on so come ready to practice your linework. Teardrops and delicate details will level up any basic design and make it advanced. If you feel like your linework could use a tune up, a little bit of intentional practice with your linework goes a long way.                                                                                                                                                      | <b>Cody Williams</b><br><b>Schtick</b><br>This class is on performance. A shortened hybrid class of "Flair" where we make a monkey on a tree in a performance style teaching how to do the tricks after demonstrating. We will go over breaking techniques, one handed twisting, nose balancing, speed twisting, and mouth inflating. | <b>Amanda Careford</b><br><b>Festive Eyes</b><br>Fun, fast and festive ...simple designs with pretty layering, perfect for adults and teens with a sprinkle of winter.                                                                                                                                          |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |

| 9:30am-11:00am    | <b>Josh Clark</b><br><b>Stupendous Superheroes</b><br>In this class, attendees will learn how to make my favorite superhero designs, including Spider-Man, Batman, The Flash, Superman, and more.                                                                                                                          | <b>Elisa Griffith</b><br><b>Crowning the Canvas: Face &amp; Body Integration</b><br>Spent hours on a killer body paint and ran out of time for the face? We got you!<br>Join Elisa & Catherine for Crowning the Canvas, a creative crash course on turning those last 30 minutes into pure magic. Learn how to tie your body art and face together for a stunning, finished look!<br>Learn time-saving techniques to finish your full-body designs beautifully and cohesively even when you only have a few minutes left on the clock! | <b>Ashe Owens</b><br><b>On The Job Distortion and Weaving</b><br>Some quicker ideas on how and when to utilize distortion and weaving techniques on the job to further impress your clients and quickly add a detailed, memorable spin on your regular designs. "But, Ashe, isn't that for delivery pieces and stuff?" No friends, we're talking linework, have no fear, I believe in you. We can do this together. (This will be an intermediate to advanced class) | <b>Amanda Careford</b><br><b>Party Eyes</b><br>Whimsical adult eyes designs, great for corporate events and parties.<br>Onestroke, stencils, flow and focal points.                                                                                                                              | <b>Heather Green</b><br><b>Totally Tattoos</b><br>Long gone are the days of simple tattoos, join Heather as she takes it up a few notches with her airbrush. Learn how to create custom stencils, combine patterns and textures and create living art using your tattoos. |
| 11:15am - 12:45pm | <b>Kornpop McCullough</b><br><b>Library and School Shows</b><br>In this class you will learn how to book library and school shows: who to talk to, how to keep them interested in you and then what to do when you get the job, including how to plan your show and how to get them to ask you back again year after year. | <b>Irene Melvin</b><br><b>Kawaii Designs</b><br>Get ready for a burst of cuteness! In this class, we'll create fun, eye-popping designs that sparkle around the eyes and forehead. You'll learn how to start with a simple idea, then add those magical little touches that make it uniquely yours (or your customer's!). From bright solids to dreamy one-stroke blends, these designs are quick, adorable, and guaranteed to bring out happy smiles. We'll go step by step, so it stays easy, lighthearted, and full of fun!         | <b>Callie Compton</b><br><b>Stiltwalking</b><br>Come for a crash course on the safety and techniques for stiltwalking                                                                                                                                                                                                                                                                                                                                                | <b>Lamar Garcia</b><br><b>Pro Tips &amp; Trick for Sugar Skulls</b><br>Less is more! Making paint look like airbrush. Paint consistency is key. Keep it nice and tight.                                                                                                                          |                                                                                                                                                                                                                                                                           |
| 12:45pm - 2:15pm  | Lunch                                                                                                                                                                                                                                                                                                                      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |                                                                                                                                                                                                                                                                                                  |                                                                                                                                                                                                                                                                           |
| 2:15pm - 3:45pm   | <b>Cody Williams</b><br><b>Awesome Mix Vol. 2</b><br>This class will include my most recent popular requests that I have been making day to day, or if the class wants to work on something stumping them, we can deviate. Its an adaptive hands on class..                                                                | <b>Gio Guzman</b><br><b>Roses, Leaves and Garden Things</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                            | <b>Tony Maxironi</b><br><b>Holiday Designs</b><br>Need cute holiday designs to add to your repertoire? I got you. We will mostly focus on twisting Christmas balloons, but feel free to ask for a design for any other holiday you need a fresh design for                                                                                                                                                                                                           | <b>Emilia Zakonnova</b><br><b>Your Royal Highness</b><br>Every little girl dreams of being a princess, and this class helps make that dream come true. Learn to create multiple princess designs. As a bonus, tips for creating and including bling clusters and glitter will be included.       |                                                                                                                                                                                                                                                                           |
